

PLAN OF 220-FOOT LEVEL, MELVILLE MINE

PLAN OF 110-FOOT LEVEL, MELVILLE MINE

EXPLANATION

- Silicified and mineralized zone, showing dip
- Fault, showing dip and horizontal movement
- Fracture, showing dip
- Strike and dip of foliation
- Strike of vertical foliation
- Pitch of linear elements
- Strike and dip of joints
- Open cut, showing depth, in feet

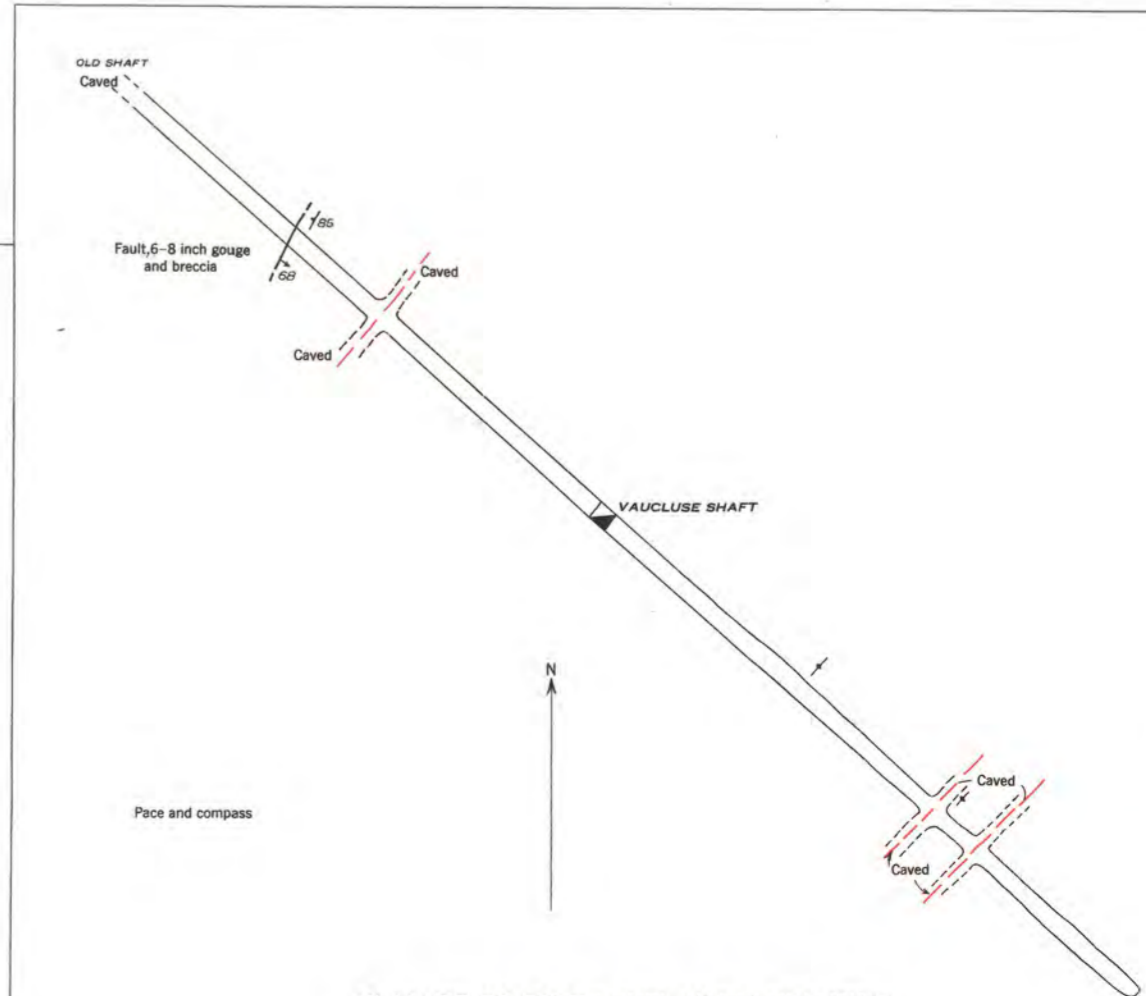

Scale for Geologic Map
100 0 400 Feet

Scale for Mine Plans
20 0 80 Feet
